

Honeywell Announces Obsolescence of 201LS501 and 201LS502 – Compact Limit Switch with 120VAC Indicator

Honeywell is announcing immediate obsolescence of the 201LS501 and 201LS502 – Compact Limit Switch with 120VAC Indicator. Please refer to the Timeline of Events shown below for more details. While Honeywell prefers to offer last time purchases of obsolete products, one of the components for this product is no longer available from our supplier so final purchases are not available.

The Compact LS line no longer will offer an indicator light as an option. The closest alternative would be our HDLS line of limit switches. Please consult our catalog and your local Honeywell representative to evaluate the best option for replacement. For example, the LSA5A is a plug-in body, side rotary with a 120VAC indicator light.

AFFECTED PART NUMBERS

201LS501
201LS502

TIMELINE OF EVENTS

The following timeline pertains to all retired SKUs.

Action	Description	Date
Obsolescence	Part no longer available for order.	January 6, 2021

Please note that Honeywell has specific warranty provisions applicable to obsolete products. The relevant language is set forth below.

WARRANTY/REMEDY

Subject to the following conditions, Honeywell warrants goods of its manufacture as being free of defective materials and faulty workmanship during the applicable warranty period. Honeywell's standard product warranty applies unless agreed to otherwise by Honeywell in writing; please refer to your order acknowledgement or consult your local sales office for specific warranty details. If warranted goods are returned to Honeywell during the period of coverage, Honeywell will repair or replace, at its option, without charge those items that Honeywell, in its sole discretion, finds defective. **Notwithstanding the foregoing, in the event of a product end-of-life or obsolescence, or inability of Honeywell to manufacture or source materials or component parts for a product, for whatever reason, and/or any associated last-time buy in relation to a product (an "Obsolescence"), Honeywell shall engage in commercially reasonable efforts to repair or replace products in accordance with the terms of its standard warranty, but in no event shall it be liable if it is unable to do so due to the Obsolescence. The foregoing is buyer's sole remedy and is in lieu of all other warranties, expressed or implied, including those of merchantability and fitness for a particular purpose. In no event shall Honeywell be liable for consequential, special, or indirect damages.**

If you have any questions, please contact your sales representative for Honeywell products.

Best Regards,

Amrita G. Khemchandani
