

Attn.: _____

HIROSE ELECTRIC CO., LTD.
2-6-3 Nakagawa Chuoh, Tsuzuki-ku, Yokohama, JAPAN**HIF3 Series Crimp Terminals – Product Consolidation**

We are writing today to inform you that we will make some changes as shown in the subject for the reason described below.
We will announce them in advance.

1	Products	HIF3-****SC,HIF3-****SCF, HIF3-****SCC,HIF3-****SCFC *Please refer to the attachment 1 for detailed product names.												
2	Substitute proposal product	HIF3-****SCA,HIF3-****SCFA *Please refer to the attachment 1 for detailed product names.												
3	Classification of change	Product specification change.												
4	Changes	■Applicable to ①: HIF3-****SC, HIF3-****SCF The following changes will be implemented: (1) Plating specification (common) <table><tr><td>Before</td><td>After</td></tr><tr><td>Full gold plating</td><td>Partial gold plating on contact area only</td></tr></table> *Reduction of unnecessary gold plating outside contact area (2) Carrier structure (SCF only) <table><tr><td>Before</td><td>After</td></tr><tr><td>Single-side carrier</td><td>Double-side carrier</td></tr></table> ■Applicable to ②: HIF3-****SCC, HIF3-****SCFC The contact structure will be changed. <table><tr><td>Before</td><td>After</td></tr><tr><td>Left-right clamping 2-point contact</td><td>Top-bottom clamping 2-point contact</td></tr></table> There will be no difference in product performance as a result of these changes. For further details, please refer to attachment 2.	Before	After	Full gold plating	Partial gold plating on contact area only	Before	After	Single-side carrier	Double-side carrier	Before	After	Left-right clamping 2-point contact	Top-bottom clamping 2-point contact
Before	After													
Full gold plating	Partial gold plating on contact area only													
Before	After													
Single-side carrier	Double-side carrier													
Before	After													
Left-right clamping 2-point contact	Top-bottom clamping 2-point contact													
5	Reason for change	The revision of Products ① and ② was carried out in response to the recent surge in gold prices, with the aim of standardizing specifications across the entire series and ensuring supply stability and price competitiveness.												
6	Date of final reception of orders for the applicable product	July 30,2027												
7	Date of the first reception of orders for the substitute proposal product	Most of the substitute products are already available for order; however, for some items, orders are scheduled to commence on July 30, 2026. Please refer to attachment 1 for further details.												
8	Date of final shipment of the applicable product	December 24,2027												
9	Regarding test data	Quality evaluation test: Submission is available. Individual evaluation test:Submissions may be made after September 1, 2026												
10	Date of your acknowledgement	By December 25,2026												

Due to unavoidable circumstances such as future material supply conditions, orders for the applicable products may be terminated without prior notice prior to the final order acceptance date.
We apologize for the inconvenience, but we kindly ask that you please inform our sales representative as soon as possible of your approval.
Please note that if we do not receive a response by the approval date, we will assume that your approval has been received, and if you receive an order for the applicable product after the final order acceptance date, we will not be able to accept your order.

If you should have any questions, please feel free to contact a Hirose business representative.
Your understanding and cooperation are highly appreciated.
