## **Product Withdrawal Notice**

Pyroelectric infrared sensor IRA-S series (lead type) and Fresnel lens

Dear. Valued Customer

Thank you very much for your great and continued support for business with Murata.  
This is the official notification that some of our products will be discontinued as detailed below.  
Please review this, and approve in writing by Approval Due Date.  
Also, please place Last Time Buy Order by the Last Time Order Due Date as needed.  
Your understanding and support are highly appreciated.

### **1. Product Type, Customer/Murata/Alternative Part Numbers:**

Product Type: Pyroelectric infrared sensor IRA-S series (lead type) and Fresnel lens

Please refer to the attached documents for detailed Part Numbers' information.

### **2. Reasons/Background:**

The sales of our Pyroelectric infrared sensor IRA-S series (Lead type) is expected to decrease as change of needs and deterioration of environments.

In addition, our productivity risks are increasing due to aging facilities and material suppliers.

As a result, we decided to withdraw from the IRA-S series (Lead type/analog output) business because profitability was not expected, and concentrate resources on SMD type/digital output.

Accordingly, the Fresnel lens business will be terminated.

### **3. Approval Due: Jan. 31, 2027**

Please review this, and reply to Sales for this Notice in writing by Due Date.

In case we do not get any contacts by the Due Date,
