**Certificate of Compliance
Rare Earth Minerals**

Date: June 11, 2025

Hammond part: All parts

Hammond Manufacturing does not use rare earth minerals such as samarium, gadolinium, terbium, dysprosium, lutetium, scandium, and yttrium in our products.

Rare earth minerals are not present in the raw materials that we source for our production.

We are therefore unaffected by any export restrictions that may happen with these minerals.

This statement covers Hammond in Canada, the United States, the United Kingdom as well as products that we source from around the world.

Signed: 

Ross Hammond
