

COMPLIANCE CONFIRMATION

Supplier

Diptronics Manufacturing Inc.

Declaration of PPWR Packaging Compliance Status

This statement is issued in response to the requirements of the European Union Packaging and Packaging Waste Regulation ("PPWR"), Regulation (EU) 2025/40.

Diptronics Manufacturing Inc. hereby declares that, based on the information currently available from our materials, suppliers, and internal compliance review, the packaging and/or packaging components supplied by our company comply with the applicable heavy-metal concentration requirement under the PPWR.

Specifically, the combined concentration of the following substances in the packaging and packaging components does not exceed 100 mg/kg (100 ppm):

- Lead (Pb)
- Cadmium (Cd)
- Mercury (Hg)
- Hexavalent Chromium [Cr(VI)]

Please note that the above limit applies to the sum of the concentrations of these four substances.

Regarding other applicable PPWR requirements, including the assessment of additional substances of concern and other relevant obligations, our company is currently conducting an internal investigation and implementation review with our relevant suppliers and internal departments.

We expect to complete the related evaluation and provide further compliance information and/or supporting documentation by approximately the end of December 2026.

Sincerely,
Diptronics Manufacturing Inc.
