PPWR Compliance

This is to certify that, Isocom Components 2004 Ltd confirms **all** products supplied by us are compliant with Regulation (EU) 2025/40 of the European Parliament and of the Council, regarding packaging and packaging waste (PPWR).

We confirm that, based on all information available to us, Isocom packaging type meets sustainability, recyclability, and safety standards, EU sustainability and safety requirements under Regulation (EU) 2025/40.

Primary & secondary packaging Isocom Components use are:

- Cardboard
- Paper
- Labels
- Tape
- Plastic Tubes
- Shrink Wrap Plastic
- Plastic Reels

The packaging meets the heavy metal concentration limits set out in Article 5 PPWR (≤ 100 mg/kg total).

Restricted substances are not intentionally added.

Food contact packaging legislation is not applicable Where applicable.

The sum of concentration of lead (Pb), cadmium (Cd), mercury (Hg) and hexavalent chromium (Cr VI) in the packaging and its components does not exceed 100 mg/kg.

We confirm that, based on all information available to us, the PFAS substances specified by European Chemicals Agency (ECHA), the UK Health and Safety Executive (HSE), are either not present in the listed articles or are present at levels below any applicable regulatory thresholds.

Declarations can be provided upon request.

Isocom Components 2004 Ltd are committed to reducing waste and monitoring our packaging materials ensuring recyclable materials where possible.
