Conflict Mineral Free Sourcing Certification

Subject -

Conflict minerals (metals) are metals such as gold (Au), tantalum (Ta), tungsten (W), cobalt (Co), palladium (Pd) and Tin (Sn) derived from minerals being sourced from mines in Democratic Republic of Congo (DRC) conflict areas or surrounding countries which are controlled by non-government military groups, or unlawful military factions. Illegal mining profits by local military groups in the eastern DRC or surrounding countries are contributing to human rights abuses, environmental degradation, and theft from the country's citizens.

Certification –

We hereby confirm the parts we provide to ANGLIA are compliance to Conflict Minerals request.

Sincerely
CALINAR
