

CLIFF ELECTRONIC COMPONENTS LIMITED

## Environmental Policy

### Commitment

The Management Team and every employee of Cliff Electronic Components Limited, is conscious and aware of their environmental responsibilities and the impact their activities may have. All are committed to reducing said impact by ensuring all working practices support this and sustain both our own and the local environment.

### Compliance

Cliff complies with the Environment Protection Act and actively seeks to meet or exceed all expectations therein.

### Practical Implementation

- Where possible, all packaging materials are reused. When not these are recycled in the appropriate manner.
- Ensuring plastic packaging, where possible, contains 30% recycled material.
- Extraction to reduce emissions in Production Areas.
- Ensuring all external areas are kept clean and tidy of rubbish.
- Electric vehicles
- Encouragement of public transport use, to travel to and from work.
- Selection of responsible suppliers.

### Management

Practices and environmental requirements are reviewed annually to ensure we are doing all we can to both lessen our impact on the environment and that all relevant legislation is being followed.

### Proactivity

Employees are encouraged to suggest any improvements which will then be validated and become best practice.

### Communication

This policy is openly available and may be communicated to all company personnel, suppliers and other interested third parties.
