

BLOOMICE SL

REACH Statement 2023

The law on chemicals, REACH (Registration, Evaluation, Authorisation and Restriction of Chemicals), came in to force during June 2007. The aim of REACH is to improve the protection of human health and the environment through more substantial identification procedures of the properties of chemical substances.

The company:

BLOOMICE SL
Rushey Ford Business Park
Bedford, MK43 8RU
UNITED KINGDOM

hereby declares to be in compliance with the **Regulation (EC) No 1907/2006** of the European Parliament and of the Council of December 18, 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH).

According to the Article 33 (1) of REACH, suppliers are obliged to communicate information on substances in their products. If substances' concentration in the referred articles (products) are above 0,1% weight by weight (w/w), suppliers must provide the recipient of the article with sufficient information, to allow safe use of the article including, as a minimum, the name of that substance.

Annex XVII Restrictions

BLOOMICE SL continue to monitor the ongoing amendments to Annex XVII of REACH. Whilst the amendments introduced some new restrictions they primarily replaced a number of European Union directives by consolidating existing restrictions, including those that had been implemented as amendments to Directive 76/769/EEC.

In many cases, Annex XVII restrictions are application specific.

BLOOMICE SL can confirm that all products supplied by us are fully compliant with Annex XVII restrictions.

We will continue to monitor the new additions to Annex XVII and will update our compliance statement as necessary.
