## Information Note

### cUL approval for EPCOS ThermoFuse varistors

The EPCOS ThermoFuse® varistors of the B72214R\*, B72214W\*, B72220R\* and B72220W\* series will receive cULus certification instead of the previous UL safety marking. This means that the varistors comply with both US and Canadian safety requirements.

This change will have no effects on the form, fit, function, quality, reliability and lead time of the affected products. The plant in Zhuhai/China is certified to IATF 16949 and ISO 9001. Production release complies with IATF 16949.
