

22 September 2022

Dear Customer

Anglia have been notified by our supplier StudioMate that they have opened a new mould tool for part number **A26M3N3** as the old one was beyond its serviceable life.

There are very slight dimension changes which can be viewed on the attached data sheets. The material has changed from PBT (UL94V-2) to PA66+Pb30% (UL94V-0).

There are no changes to the electrical specification.

Anglia operates a strict FIFO system in our Distribution Centre therefore it may take some time for this change to filter through to customer deliveries.

Please ensure this information is circulated to the relevant persons within your organisation.

Yours Sincerely

Anglia
