

Product/Process Change Notice - PCN 20_0245 Rev. D

Analog Devices, Inc. One Analog Way, Wilmington, MA 01887

This notice is to inform you of a change that will be made to certain ADI products (see Appendix A) that you may have purchased in the last 2 years. **Any inquiries or requests with this PCN (additional data or samples) must be sent to ADI within 30 days of publication date.** ADI contact information is listed below.

Note: Revised fields are indicated by a red field name. See Appendix B for revision history.

PCN Title: Notification of Wafer Fab Location Change for 0.6 μ m BICMOS Process Devices from ADI Milpitas (Hillview) to Vanguard Int. (Taiwan)

Publication Date: 28-Jul-2021

Effectivity Date: 30-Oct-2021 *(the earliest date that a customer could expect to receive changed material)*

Revision Description:

Adding and removing parts.

Description Of Change:

ADI is transferring some of the products currently manufactured using the 0.6 μ m BICMOS process from wafer fab facility located at 275 S. Hillview Dr., Milpitas, CA, USA to Vanguard International Semiconductor, Taiwan. See Appendix 1 for the list of affected part numbers. The affected products will be manufactured using ADI specified manufacturing flows, materials, process controls, and monitors ensuring no degradation of quality and reliability performance. No new products are being released in the Hillview wafer fab and these products will be transferred into the Vanguard wafer fab upon approval of this PCN.

Reason For Change:

As part of ADI's overall manufacturing strategy, ADI has decided to close the Hillview wafer fab facility. Vanguard has been a successful wafer fab foundry partner for ADI, and this business expansion will ensure continuity of supply to our customers well into the future. Vanguard International Semiconductor third party certifications and capacity details are attached for your review. Additional information can be found at <http://www.vis.com.tw>.

Impact of the change (positive or negative) on fit, form, function & reliability:

The qualification of 0.6 μ m BICMOS process from the Vanguard International Semiconductor has been completed following AEC-Q100 qualification requirements. Upon completion of process qualification individual device by device qualification will be initiated. The devices will be characterized over the full operating temperature range. Additionally, devices from Vanguard International Semiconductor will be carefully compared to the ADI fabricated devices to ensure identical performance when installed in customer applications.

Product Identification *(this section will describe how to identify the changed material)*

The devices manufactured in Vanguard International Semiconductor will have the same part number and the same top mark as those manufactured at ADI. However, when necessary we can use our lot number traceability system to identify where and when a device was fabricated.

Summary of Supporting Information:

Qualification has been completed per Industry Standard Test Methods. See attached Qualification Result.
