Product Change Notification:

Reference: PCNMK1006
Date: September 13, 2021

Affected Part Numbers:

The bracketed number represents which image should be referred to in the “Description of the Change” section.

Group A (Change date 4th October 2021):

22R103MC (1)	22R104MC (1)	22R105MC (1)	22R106MC (1)	22R153MC (1)	22R154MC (1)
22R155MC (1)	22R156MC (1)	22R223MC (1)	22R224MC (1)	22R225MC (1)	22R226MC (1)

Description of the Change:

Currently, the product information is printed in ink. This will change to laser marking.

Products shown in the images below are only intended to demonstrate the differences in appearance between the two marking methods and may not resemble the specific markings or product for the listed SKU.

e.g.

Ref	Ink printing	Laser marking
1		
2		
3		
4		
5		
6		

7		8		
9		10		
11		
12		
13		

14		
15		
16		
17		
18		

This change will be implemented on the following dates:

Group A - 4th October 2021
Group B - 1st November 2021

Ink printed stock will be consumed before shipping laser marked parts.

Reason for the Change:

Ongoing improvement of manufacturing process repeatability and efficiency.
Elimination of material usage and waste.

Potential Product Performance / Behavior Impact:

The product marking will continue to be clear and legible, albeit with slightly decreased brightness.
There are no changes to the products' design, quality, guaranteed specifications, or others, as Murata continuously uses the same production process and quality control system.

Enquiries

Should you have any questions or concerns, please contact your local Murata Sales, Representative, or Distributor.
