

Product/Process Change Notice - PCN 13_0042 Rev. -

Analog Devices, Inc. Three Technology Way Norwood, Massachusetts 02062-9106

This notice is to inform you of a change that will be made to certain ADI products (see Material Report). Any issues with this PCN or requirements to qualify the change (additional data or samples) must be sent to ADI within 30 days of publication date. ADI contact information is listed below.

PCN Title: AD9912A die revision
Publication Date: 05-Aug-2013
Effectivity Date: 03-Nov-2013 *(the earliest date that a customer could expect to receive changed material)*

Revision Description:

Initial Release

Description Of Change

Connect device in the system clock output stage to pull the complementary output HIGH during power-down.

Update Die ID revision Code.

Reason For Change

Reduce power consumption in 'full power down' mode.

Updated Die ID indicates new revision.

Impact of the change (positive or negative) on fit, form, function & reliability

Slightly lower (typical) power consumption in full power down. There will not be a change in the data sheet specification as the change was minimal.

Product Identification *(this section will describe how to identify the changed material)*

New Material will be Datecode 1324, Die ID Revision Code @ Register 0x0002 updated to 0x82.
