Product Change Notice (PCN)

February 8th, 2021

LFPCN 5743E

Product Change Notification for Littelfuse TMOV[®] and iTMOV[®] Varistor Series

To whom it may concern,

Littelfuse would like to notify you of a change related to TMOV[®] and iTMOV[®] Varistor Series product's dimension, electrode material and IEC certified agency. Please refer to the following change summary table.

	Current	New
Dimension of A_{max} , D_{max}	Please see attached the affected part number list for more details	
Electrode	Ag	AL + Cu
EN IEC 61051-1: 2018. IEC 61051-2: 1991 + A1	VDE: 40021525	TUV: J 50490209

These changes have no impact to product's original electrical parameters, wire lead pitch, quality, reliability, solderability, lead time and part number. New product samples and detailed qualification test report are available upon request.

These changes will be implemented starting from May 10th, 2021, during the change transition period, customers are expected to receive current and new products until current product inventory in Littelfuse warehouses and distribution channels are depleted.

From the publish date of this PCN, all the existing sample order will be fulfilled based on the new electrode material and dimension.

Please see attached the affected part number list and dimension details and respond to us by March 31st, 2021 to acknowledge this product change notification. If we do not hear from you, we will expect this product change notification has been accepted and no further action is required. Thank you.

Best Regards
Johnny Chang
Product Manager
