Change Description

After June 1, 2012, Cree will begin shipping XLamp LEDs in modified cardboard boxes. The boxes that house both the 7 inch and 13 inch reels will have the window on the front enlarged, so that both the production label containing the Bin ID and the shipping label containing the Kit Code are affixed to the moisture barrier bag. In addition, the new window size is increased to 5 inches by 5 inches.

Pictures of the new cardboard box appearance are provided below.

Impact of Change

Effective June 1, 2012, customers may begin receiving shipments with the new cardboard boxes. Customers may receive both new and old cardboard boxes in the same shipment until Cree's inventory of the old boxes is depleted.

No customer action is required.
