

## Product Change Notice

To: All concerned

From: Antonio Beasain

Date: 21/08/2012

N° Pages: 2

PCN Ref N°: PT10 H with improved (flanged) collector

---

The collector for the PT10 H model has been redesigned to include a flange near the rotor's hole. This change affords significant improvements in terms of rotational feeling and improved torque & hysteresis.

All other product's specifications remain unaffected.

Affected parts, images, drawing and/or specification numbers are listed on this document. In case of any further questions about this change, please contact us.

**INVOLVED ARTICLES: PT10 H**

**REASONS FOR CHANGE:** Improved rotational feeling. More homogeneous torque. Improved hysteresis.

**SAMPLES AVAILABILITY DATE:** week 36 for linear taper 10K/100K models and rotors L or M. Others upon request (custom drawing).

**FIRST DATE TO SHIP CHANGED PARTS:** 01/02/2013.

**LAST DATE FOR MIXED SHIPMENTS:** till remaining stocks for old parts are finished.

## Piher Declaration

The undersigned,

based on the information available from reliability test and internal analysis, declares that the following product:

### **PT10 H with flanged collector**

comply with the specification of data sheet and doesn't present any change in the performance of the product, mainly in Rotation Torque and Mechanical Life Cycles.
