## 2 Type of change

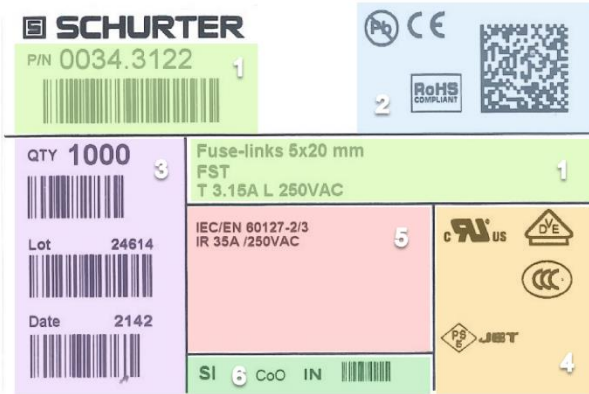

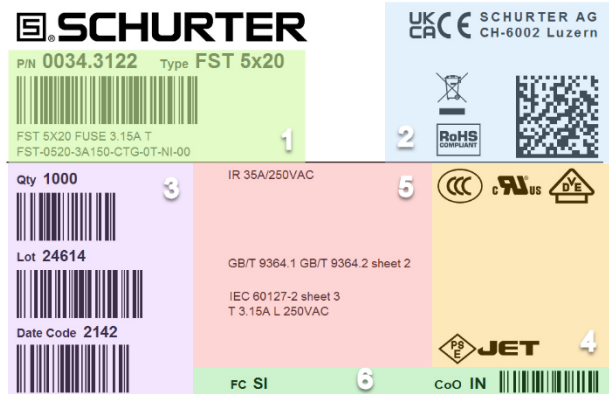

- Modified label
- Improved identification product configuration code on the label

## 3 Detailed description of change

All product types listed in section 1 receive a new label layout.

To better visualize the changes, we have used colors and numbers to cluster information into the following sections (The colors and white numbers are not part of the new label layout):

<b>Product identification section:</b> To improve readability, we clustered all the information concerning product identification in this group. To increase clarity, we added the configuration code into this area.	1
<b>Product conformity section:</b> Identical information was slightly rearranged.	2
<b>Product logistics section:</b> Label names changed. Information was slightly rearranged.	3
<b>Product approval section:</b> Identical information was slightly rearranged.	4
<b>Interruption ratings section:</b> Identical information was slightly rearranged.	5
<b>Origin information section:</b> Label for Factory Code was added. Information was slightly rearranged.	6

Old label	New label
	

Product Change Notification					PCN Global Labeling Phase VI

#### 4 Reason of change

SCHURTER improves and modernizes the label printing process to increase standardization and harmonize processes throughout all SCHURTER factory locations.

#### 5 Release date

Packaging labels will be changed earliest in week 49/2021 (Date code 2149 or higher on the label).

#### 6 Impact of change and recommended action

Form	No	
Fit	No	
Function	No	
Manufacturing	No	
Label	Yes	No actions required since bar code & 2D-code are not affected by the change.
Packaging	No	

#### 7 Reference Documents / Attachments

Kind of document	Remarks
List of affected articles	List contains a comparison of text / content between old and new labels in reference to chapter 3. "Product identification section"
