

Product Change Notification

MULTIFUSE® PPTC RESETTABLE FUSES

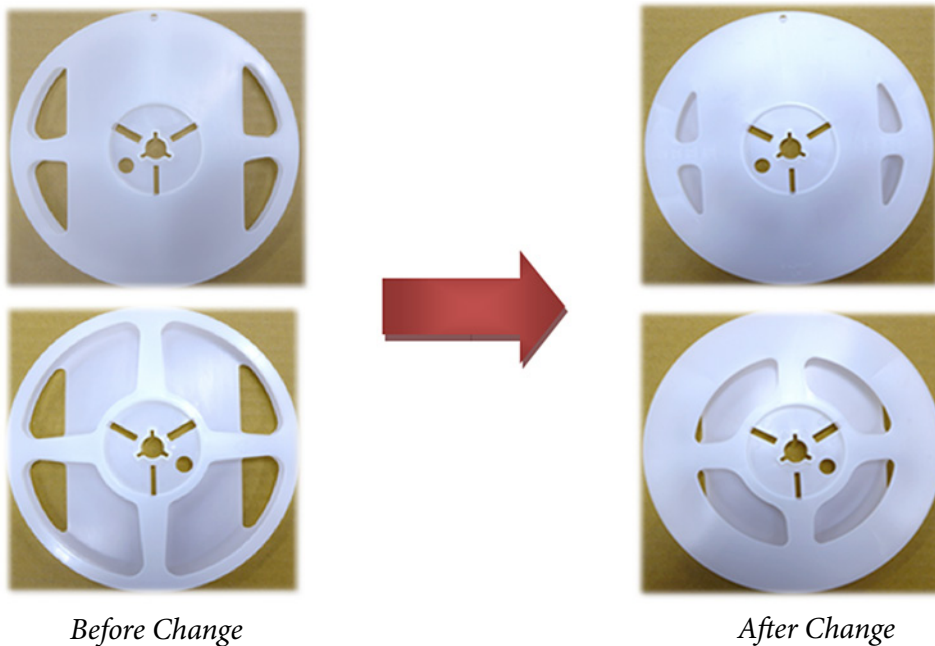

October, 2017

Reel Change for Select Bourns® Multifuse® PPTC Resettable Fuse Model Families

MF-FSMF, MF-PSMF, MF-PSML, MF-PSHT, MF-NSMF, MF-NSHT, MF-USMF and MF-USHT

To improve the protection of Multifuse® products during packaging, transit and delivery, Bourns has decided to change the reel structure for model families, [MF-FSMF](#), [MF-PSMF](#), [MF-PSML](#), [MF-PSHT](#), [MF-NSMF](#), [MF-NSHT](#), [MF-USMF](#) and [MF-USHT](#) from a reel with significant hollow areas to a reel with a more solid structure. The radius, diameter, and width dimensions of the reel will not change. The new reel's more solid structure helps to increase its strength and improve its ability to withstand bending or warping when multiple reels are stacked on top of one another.

The change to the reels does not alter the form, fit, function, quality, or reliability of the Multifuse® PPTC Resettable Fuse products themselves. The complete list of affected part numbers for this reel change is included on the following page.

Affected Part Numbers

MF-FSMF	MF-PSMF	MF-PSML	MF-PSHT	MF-NSMF	MF-NSHT	MF-USMF	MF-USHT
MF-FSMF010X	MF-PSMF010X	MF-PSML110	MF-PSHT010X	MF-NSMF012	MF-NSHT016KX	MF-USMF005	MF-USHT035KX
MF-FSMF020X	MF-PSMF010/24X	MF-PSML150		MF-NSMF016	MF-NSHT035KX	MF-USMF010	MF-USHT050KX
MF-FSMF025X	MF-PSMF020X	MF-PSML175		MF-NSMF020		MF-USMF020	
MF-FSMF035X	MF-PSMF035X	MF-PSML200		MF-NSMF020X		MF-USMF035	
MF-FSMF050X	MF-PSMF050X	MF-PSML260		MF-NSMF025X		MF-USMF050	
	MF-PSMF075X	MF-PSML300		MF-NSMF035		MF-USMF075	
	MF-PSMF110X	MF-PSML350		MF-NSMF035X		MF-USMF110	
				MF-NSMF050		MF-USMF150	
				MF-NSMF075		MF-USMF175	
				MF-NSMF110		MF-USMF175X	
			MF-NSMF150				
			MF-NSMF200				

Implementation of this reel change will be on a running basis beginning: **November 1, 2017**

If you have any questions or need additional information, please feel free to contact [Bourns Customer Service/Inside Sales](#).
