Bourns® Model SRN8040 Semi-Shielded Power Inductor Series Change to Packaging Specification, Minimum Order Quantity and Multiple Ordering Quantities

The Bourns® [Model SRN8040](#) Semi-Shielded Power Inductor Series' packaging specification, Minimum Order Quantity (MOQ), and Multiple Ordering Quantities (MULT) are changing.

The packaging specification of the tape and reel carrier of the Model SRN8040 has been redesigned with embossment on the bottom and sides to provide shock absorption in order to help protect the inductor during shipping and handling. Along with this change, the tape leader, trailer and the number of inductors packaged per reel has been modified. Figures 1 and 2 highlight these changes. The MOQ and MULT ordering quantities of the Model SRN8040 Series have changed from 1200 pcs to 1000 pcs.

The changes do not affect the form, fit or function of the product. The only changes are to the packaging and ordering quantities.

Affected Part Numbers:

Part Number	Current		New	
	MOQ	MULT	MOQ	MULT
SRN8040-R50Y	1200	1200	1000	1000
SRN8040-1R0Y				
SRN8040-1R5Y				
SRN8040-2R0Y				
SRN8040-2R2Y				
SRN8040-3R3Y				
SRN8040-3R6Y				
SRN8040-4R7Y				
SRN8040-6R8Y				
SRN8040-8R2Y				
SRN8040-100M				
SRN8040-150M				
SRN8040-220M				
SRN8040-330M				
SRN8040-470M				
SRN8040-680M				
SRN8040-101M				

Implementation dates are as follows:

Date that manufacturing of existing product will cease: February 13, 2015

Date that deliveries of modified products will begin: March 2, 2015

First date code using the above changes: 1509
