More eco-friendly packaging for EPCOS SMT inductors

EPCOS SMT inductors, which are wound onto a 180-mm (7-inch) reel, will in future have a more eco-friendly packaging. The reel will be made of recycled polystyrene instead of new polystyrene. The color of the reel will be black instead of white.

Affected products

Ordering codes
B82496*
B82498*
B82422*
B82450A*C*

Planned introduction: June 27, 2016

This change will have no effect on the quality and reliability of the affected products. The electrical and mechanical properties remain unchanged. The stability, quality and reliability of the reels from recycled polystyrene are similar to those previously used.

During a transitional period, mixed reel deliveries of the affected products are possible.
