

Dear Customer,

Anglia have been advised by the supplier ELECTRONIC SENSOR INC that the current case style for part number SRHR-233C will no-longer be supplied due to tooling that has worn between its serviceable life.

The function of the device remains the same however along with the cosmetic case change the lead length has been reduced from 7mm to 5mm.

The new case style can be seen below (left image)

Anglia operates a strict FIFO system within our Distribution Centre therefore it may take some time for the new product to filter through. You may receive both versions (bagged/boxed separately) in your shipment until the old stock is exhausted.

Please make the relevant personnel within your organisation aware of this notification.

Yours Sincerely

Anglia
