

1st April 2015

Dear Customer,

We have been informed by the manufacturer Eurohm there will be a change in the marking on 0603 case size resistors with 1% tolerance with immediate effect. The letters marked on the products are currently lower case format but they will now be in upper case format.

Example

Marking Type	A	B	C	D	E	F	X	Y
0603								

This change will take immediate effect on all deliveries from Eurohm to Anglia. Anglia operates a strict FIFO system in our Distribution Centre; therefore it may take some time for this change to filter through to customer deliveries affected on part numbers. Please ensure this information is circulated to the relevant persons within your organisation.

Yours Sincerely
Anglia
