Change of package and quantity per carton of CR-2477/BN

Dear customer,

Panasonic found a minor problem after we made a drop test of CR-2477/BN internally based on UN 3090 criteria. Although Panasonic criteria is more severe than that of UN 3090 criteria, we decided to take an urgent countermeasure to strengthen shock absorption based on our quality policy. Also, we will increase the quantity per carton, responding to the request from some customers. Below is the overview of the change.

■ Model Number CR-2477/BN

■ Change

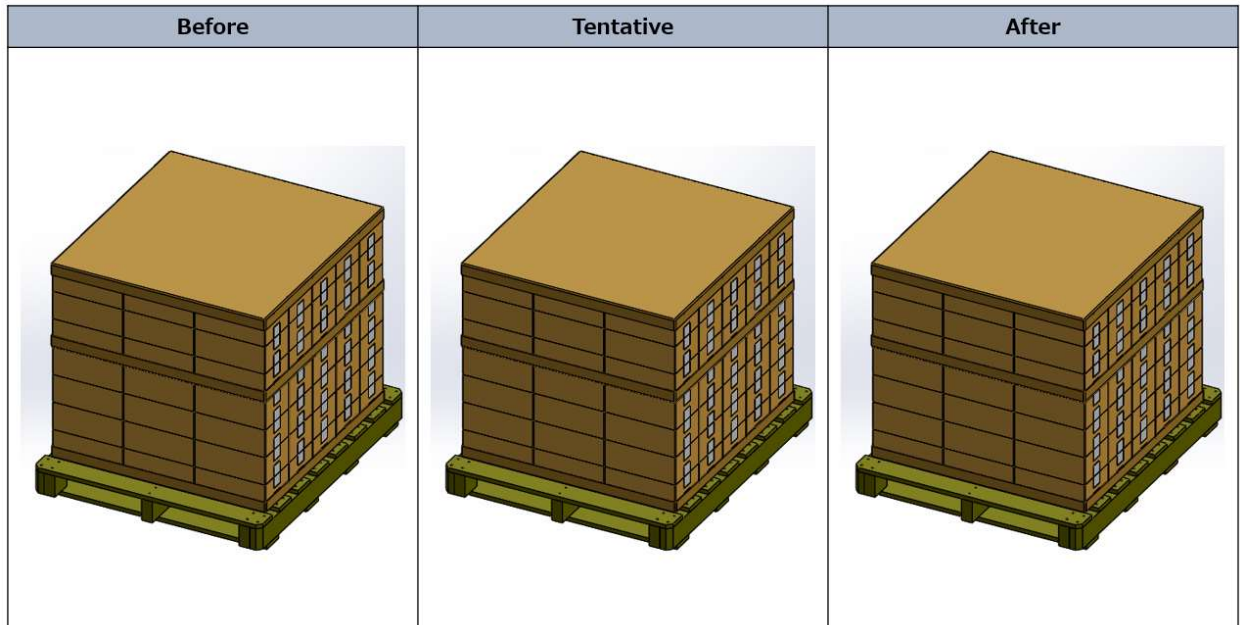

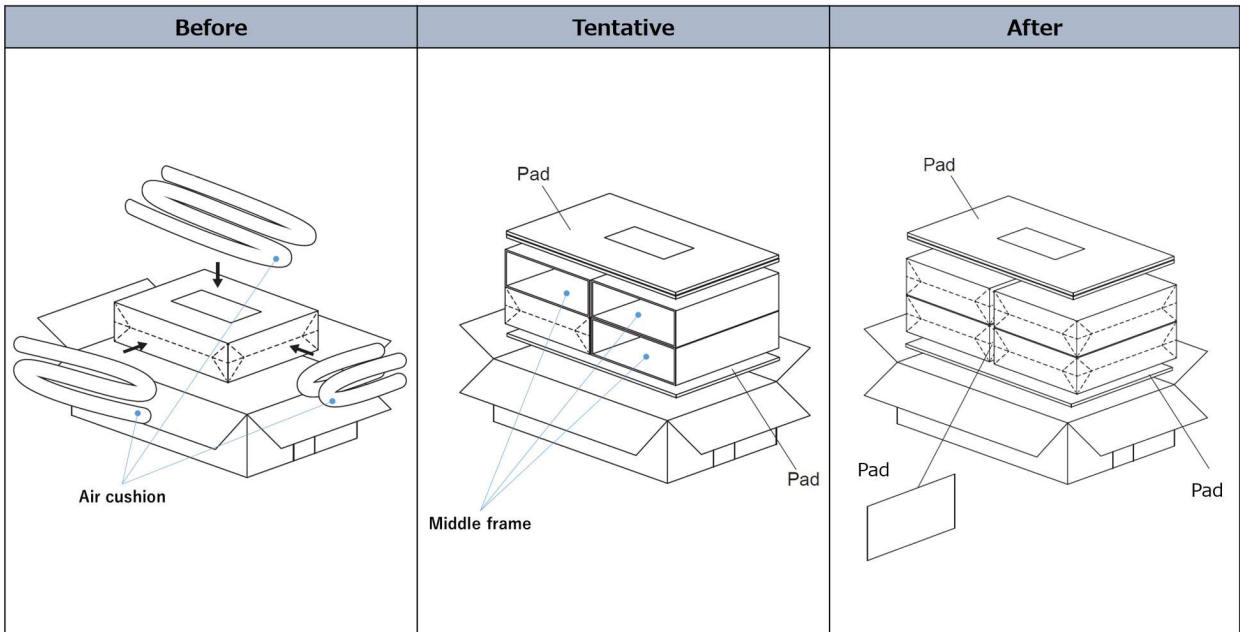

-November 100pcs/carton as temporary solution
 Carton materials are used instead of air pillows

-December onwards 400pcs/carton

Please see the below details:

Item		Before	Tentative	After
Period(ETD)		Until October 2020	November 2020	From December 2020
