

 HARTING Pushing Performance	HARTING Product Termination Notification	PTN
--	---	------------

Business Unit:	Electronics	PTN/20/004/C+N
Product range:	Interface connectors / D-Sub	Date: 2020-04-21
Author:	Hartmut Klaus	
Title:	Phase-out of D-Sub press-in - External	

Details of product termination

1. Concerned part number (see also attachment):
See attached list of part numbers.
2. Reason for termination:
<p><i>Over the last years the global sales of D-Sub versions with press-in termination has decreased year by year. Thanks to new manufacturing technologies it is possible to use reflow compatible solder versions (THR / SMT) for a lot of applications instead. An additional working step to press in the connectors separately could be cut in order to reduce the overall assembly costs.</i></p>
3. Possible replacement products
<p><i>It is possible to replace press-in connectors by versions with other PCB termination technologies, like wave or THR/SMT soldering. Please find the corresponding versions in our e-business or in our catalogue. In case of any questions our HARTING sales subsidiaries will support to define the right replacement for your specific application.</i></p>
4. Scheduled date of:
<ul style="list-style-type: none"> 1. <i>Last order:</i> 2021-04-30 2. <i>Last delivery:</i> 2021-07-31
5. Data sheet (optional):
